| 15. here | 30. said | |

Introduction

About this book:

This book contains a collection of pre-primer sight words word find pages intended for use with children in Preschool, Kindergarten (Prep) and Grade 1.

Directions for use:

Children beginning to read struggle with the common Word Find worksheet. In fact, a grid as small as 4X4 with only 4 words to find can often prove to be a challenge for these little learners. For that reason, I have made this set of Word Find worksheets where they really do look for the word – the whole word – while still concentrating on letter sequence!

Each worksheet focuses on one sight word at a time. The focus sight word is written in large text in the middle of the page and children search for it among the other sight words within the unit. This way, children not only learn the focus word, but they also familiarise themselves with the other sight words from the grade 1 word list. Once children have found all the words, they write the number of times the word was found in the circle located at the bottom right-hand of the page.

I have not included instructions on the page so that you can focus on developing any other skills you wish. If children require additional practice writing the sight word, you may like to ask them to rainbow trace the word in the middle. Otherwise, they can colour it. You might also have them draw certain shapes around each word, instead of simply circling them. Or you might ask them to colour the words using a specific colour. Or, you might use dot-paints (bingo daubers) – which is always lots of fun – to identify the word they are searching for. It's really up to you!

Happy Teaching :)
